For a house to be successful,
the objects in it must communicate
with one another,
respond and
balance one another.

A N D R E P U T M A N

Globalization is bringing people of the East and West closer. People get inspired from what and who they see online and this goes beyond whatever culture they are living in. Culture Fusion brings together a diverse mix of cultural references. Red-based earthy tones and spicy yellows are at the heart of this trend. Blending of cultural references drives a vibrant and rebellious direction that takes combinations from various cultures into a fresh,

unexpected remix. The Company carries the vision to cater world class porcelain tiles and manufactures superior quality tiles with a sharp market visualization. The company with its track record of many successful years as a leading ceramic company is capable to design and manufacture most modern tiles in this competitive market. The company has a huge production capacity which falls in line with high European standards.

MOOD BOARD FOR SOPHISTICATED & LUXURIOUS SPACE

Marble has made a modern comeback in the world of interior design. Odds are that when you picture marble as a design element, you have visions of large, cold rooms. However, the key to keeping the trend fresh is using it in small doses – accents and statement pieces – rather than in amounts that overwhelm the eye.
